RECENT INTRODUCTIONS

BEAUFORT

CAROLINE

SANDRA

These three varieties went through the last two winters unprotected in the wide open field. No blasted buds, no burned leaves. Three excellent growers making well shaped plants, nice, dark, healthy foliage.

BEAUFORT is a pure white, resembles "Boule de Neige" in colour, truss and foliage **but a far better grower**, making a well shaped plant. Sets buds very easily.

CAROLINE, best described as of "pink pearl" colour and although truss and florets are not of the pink pearl size, yet it strikes one how much alike Caroline is to "Pink Pearl." Good, healthy grower, making a broad, well filled plant with plenty of healthy foliage.

SANDRA, a beautiful dark pink-reddish colour, large truss, well set florets, strong, healthy grower, making well formed plant.

SCIONS of these three varieties \$50.00 per hundred
limited quantity available.
